SHU-R

heavy line

The SHU-R flail is an ideal piece of equipment for work in forestry areas and in pastures. It has double attachment, front and rear with lateral movement. This reversibility means being able to maximise its performance and allows a choice of processing according to requirements.

STANDARD EQUIPMENT

- three-point hitch
- rear rubber protection
- front protection with galvanised and rubber chains
- support feet
- gearbox with through shaft with internal double freewheel
- cardan shaft
- cardan protection boot
- rotor with toothed hammers
- oversized hammer supports
- belt transmission
- rear height-adjustable roller with scraper
- internal counterframe
- series of internal counter-elements
- rear hood opening for inspection
- double lateral hydraulic displacement
- double attachment on the stand
- special powder or liquid painting (primer and enamel)

Mod.			 Kg	 (Hp-kw) *	 (g/min.)		 rotor mm	
SHU-R 200	2160/1150/980	2000	1020	60-44	1000	13	245	5
SHU-R 230	2500/1150/980	2340	1190	80-59	1000	16	245	5
SHU-R 280	2960/1150/980	2800	1310	100-73	1000	19	245	5
SHU-R 300	3160/1150/980	3000	1500	110-80	1000	20	245	5

* The horsepower shown in the table are indicative and express the power required by the flail for its operation.

ACCESSORIES ON REQUEST

1. Pair of side skids
2. Oversized roller Ø 250mm
