TLB-F

light line

for skid-steer

The TLB-F hydraulic mulcher for skid steers is a robust and versatile tool suitable for the shredding of grass, reeds and bushes up to a maximum of 5/6 cm in diameter. It adapts to skid steers with a minimum power of 30Hp (22 Kw).

STANDARD EQUIPMENT

- skid steer attachment
- rear and front rubber protection
- group 2 hydraulic gear motor for size 120
- group 3 hydraulic gear motor from size 130
- anti-cavitation valve
- rotor with smooth hammers
- belt transmission
- rear height-adjustable roller with scraper
- internal counterframe
- series of internal counter-elements
- pair of skids
- special powder or liquid painting (primer and enamel)
